Standard Range

Cobcraft Octagon 5.0 cu.ft.
Cat.Num. 4022
Capacity 142 litre
Price \$5,776.90

A popular kiln for the serious potter, schools and learning institutions. Ceramic fibre insulation, giving efficiency of firing, lightweight and high performance. The firing chamber is lined with grooved bricks carrying the elements.

Cobcraft kilns are individually assembled, and guaranteed for 12 months against faulty workmanship and material (except elements).

Cobcraft Decagon 9.5 cu.ft.
Cat.Num. 4027
Capacity 270 litres
Price \$7,897.50

The Decagon 9.5 cuft kiln is the largest in the Cobcraft designmark range. With a 270 litre capacity and top loading convenience, the Decagon is popular with potters and sculpturers wanting a kiln for extra large pieces. Also popular with production studios wanting large capacity.

Cobcraft China Painter 1.2 cu.ft.
Cat.Num. 4001
Capacity 34 litres
Price \$2,778.75

The Cobcraft designmark China Painting kiln ensures quality, performance and result. Operating off a 3 pin plug this kiln is easy to use. The hexagon shape allows firing of large items, i.e. 330mm Pavlova plate or 355mm high vase. Its all class with our top performing aristocratic China Painting kiln!

Cobcraft Mini/Doll Painter 0.95 cu. ft.
Cat.Num. 4007
Capacity 27 litre
Price \$3,217.50

The Cobcraft Mini kiln has a maximum operating temperature of 1300 degrees C making it an ideal test kiln for pottery, porcelain and all test firings involving high temperature. Also a popular kiln for doll firing and ceramic jewellery where high bisque is required for small items. A kiln stand and base shelf are included with this compact kiln.

Cobcraft Octagon 3.2 cu.ft.
Cat.Num. 4017
Capacity 91 litre

A popular kiln for the hobby potter, with ease of access and economical firing. Firing chamber brick-lined with bricks carrying elements. Top-loading
